NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE COUNTY OF FRANKLIN INDUSTRIAL DEVELOPMENT AGENCY AS FOLLOWS:

Section 1. Based upon the representations made by the Company to the Agency in the Application, the Agency hereby finds and determines that:

(A) By virtue of the Act, the Agency has been vested with all powers necessary and convenient to carry out and effectuate the purposes and provisions of the Act and to exercise all powers granted to it under the Act; and

(B) It is desirable and in the public interest for the Agency to (i) acquire title to or other interest in the Land, Improvements and the Equipment constituting the Facility, (ii) lease or sell the Agency’s interest in the Land, Improvements and Equipment constituting the Facility to the Company pursuant to a lease agreement or sale agreement, and (iii) enter into a Straight Lease Transaction with the Company; and

(C) The action to be taken by the Agency will induce the Company to undertake the Project, thereby increasing employment opportunities in Franklin County, New York, and otherwise furthering the purposes of the Agency as set forth in the Act; and

(D) The Project will not result in the removal of a facility or plant of the Company or any other proposed occupant of the Project from one area of the State of New York (the "State") to another area of the State or result in the abandonment of one or more plants or facilities of the Company or any other proposed occupant of the Project located within the State; and the Agency hereby finds that, based on the Company's Application, to the extent occupants are relocating from one plant or facility to another, the Project is reasonably necessary to discourage the Project occupants from removing such other facility or plant to a location outside the State and/or is reasonably necessary to preserve the competitive position of the Project occupants in their respective industries; and

(E) Based upon a review of the Application, the EAF and related materials provided by the Company, the Agency previously reviewed the Project as Lead Agency pursuant to SEQRA and adopted a Negative Declaration on May 27, 2021. No further SEQRA review is necessary.

Section 2. Subject to (i) the Company executing the Agent Agreement and Leaseback Agreement, and (ii) the delivery to the Agency of a binder, certificate or other evidence of liability insurance policy for the Project satisfactory to the Agency, the Agency hereby authorizes the Company to proceed with the acquisition, renovation, construction, reconstruction, rehabilitation and equipping of the Project and hereby appoints the Company as the true and lawful agent of the Agency: (i) to acquire, construct and equip the Project; (ii) to make, execute, acknowledge and deliver any contracts, orders, receipts, writings and instructions, as the stated agent for the Agency with the authority to delegate such agency, in whole or in part, to agents, subagents, contractors, and subcontractors of such agents and subagents and to such other parties as the Company chooses; and (iii) in general, to do all things which may be requisite or proper for completing the Project, all with the same powers and the same validity that the Agency could do if acting on its own behalf; *provided, however*, the Agent Agreement shall expire on December 31, 2023 (*unless extended for good cause by the Chief Executive Officer of the Agency*).

Section 3. Based upon the representation and warranties made by the Company the Application, the Agency hereby authorizes and approves the Company, as its agent, to make purchases of goods and services relating to the Project and that would otherwise be subject to New York State and local sales and use tax in an amount up to approximately **\$5,715,848.00**, which result in New York State and local sales and use tax exemption benefits ("sales and use tax exemption benefits") not to exceed **\$261,416.00**. The Agency agrees to consider any requests by the Company for increase to the amount of sales and use tax exemption benefits authorized by the Agency upon being provided with appropriate documentation detailing the additional purchases of property or services, and, to the extent required, the Agency authorizes and conducts any supplemental public hearing(s).

Section 4. Pursuant to Section 875(3) of the Act, the Agency may recover or recapture from the Company, its agents, consultants, subcontractors, or any other party authorized to make purchases for the benefit of the Project, any sales and use tax exemption benefits taken or purported to be taken by the Company, its agents, consultants, subcontractors, or any other party authorized to make purchases for the benefit of the Project, if it is determined that: (i) the Company, its agents, consultants, subcontractors, or any other party authorized to make purchases for the benefit of the Project, is not entitled to the sales and use tax exemption benefits; (ii) the sales and use tax exemption benefits are in excess of the amounts authorized to be taken by the Company, its agents, consultants, subcontractors, or any other party authorized to make purchases for the benefit of the Project; (iii) the sales and use tax exemption benefits are for

property or services not authorized by the Agency as part of the Project; (iv) the Company has made a material false statement on its application for financial assistance; (v) the sales and use tax exemption benefits are taken in cases where the Company, its agents, consultants, subcontractors, or any other party authorized to make purchases for the benefit of the Project fails to comply with a material term or condition to use property or services in the manner approved by the Agency in connection with the Project; and/or (vi) the Company obtains mortgage recording tax benefits and/or real property tax abatements and fails to comply with a material term or condition to use property or services in the manner approved by the Agency in connection with the Project (collectively, items (i) through (vi) hereby defined as a "Recapture Event").

As a condition precedent of receiving sales and use tax exemption benefits and real property tax abatement benefits, the Company, its agents, consultants, subcontractors, or any other party authorized to make purchases for the benefit of the Project, must (i) if a Recapture Event determination is made by the Agency, cooperate with the Agency in its efforts to recover or recapture any sales and use tax exemption benefits, mortgage recording tax benefits and/or real property tax abatements abatement benefits, and (ii) promptly pay over any such amounts to the Agency that the Agency demands, if and as so required to be paid over as determined by the Agency.

Section 5. The Chairman, Vice Chairman and/or the Chief Executive Officer of the Agency are hereby authorized, on behalf of the Agency, to execute and deliver the Agent Agreement, Lease Agreement, Leaseback Agreement, PILOT Agreement, PILOT Mortgage, and related documents with such changes as shall be approved by the Chairman, Vice Chairman, and/or the Chief Executive Officer and counsel to the Agency upon execution.

Section 6. The Chairman, Vice Chairman, and/or the Chief Executive Officer of the Agency are hereby authorized, on behalf of the Agency, to execute and deliver any mortgage, assignment of leases and rents, security agreement, UCC-1 Financing Statements and all documents reasonably contemplated by these resolutions or required by any lender identified by the Company (the "Lender") up to a maximum principal amount necessary to undertake the Project, acquire the Facility and/or finance or refinance equipment and other personal property and related transactional costs (hereinafter with the Straight Lease Documents, the "Agency Documents"); and, where appropriate, the Secretary (or Assistant Secretary) of the Agency is hereby authorized to affix the seal of the Agency to the Agency Documents and to attest the same, all with such changes, variations, omissions and insertions as the Chairman, Vice Chairman, and/or the Chief Executive Officer of the Agency shall approve, the execution thereof by the Chairman, Vice Chairman, and/or the Chief Executive Officer of the Agency to constitute conclusive evidence of such approval; provided, that, in all events, recourse against the Agency is limited to the Agency's interest in the Project.

Section 7. The officers, employees and agents of the Agency are hereby authorized and directed for and in the name and on behalf of the Agency to do all acts and things required and to execute and deliver all such certificates, instruments and documents, to pay all such fees, charges and expenses and to do all such further acts and things as may be necessary or, in the opinion of the officer, employee or agent acting, desirable and proper to effect the purposes of the foregoing resolutions and to cause compliance by the Agency with all of the terms, covenants and provisions of the documents executed for and on behalf of the Agency.

Section 8. These Resolutions shall take effect immediately upon adoption.

CALL TO ORDER: (Time: 2:33 pm).

Jeremy Evans, CEO opened the hearing.

PURPOSE:

Pursuant to and in accordance with General Municipal Law Section 859-a, the County of Franklin Industrial Development Agency (the “Agency”) is conducting this public hearing in connection with a certain proposed project, as more fully described below (the “Project”), to be undertaken by the Agency for the benefit of **COVINGTON SOLAR 2, LLC** (the “Company”).

The Agency published a Notice of Public Hearing and delivered a copy of the Notice of Public Hearing to each affected tax jurisdiction. An Affidavit of Publication of and Proof of delivery are attached.

DISCUSSION:

Jeremy Evans, CEO read a description of the Project, as follows:

COVINGTON SOLAR 2, LLC, for itself and/or on behalf of an entity or entities to be formed (collectively, the “Company”), has submitted an application to the Agency requesting the Agency's assistance with a certain project or projects (collectively, the “Project”) consisting of: (i) the acquisition by the Agency of a leasehold interest in approximately 40.33 acres of real property located at State Route 37 in the Town of Fort Covington, New York (the “Land”), being more particularly described as a portion of tax parcel No. 23.-3-2.100, as may be subdivided); (ii) the planning, design, construction and operation of a 4.2MWAC solar electrical generation system, including panel foundations, inverters, transformers, interconnect wiring, utility

connections, sitework, landscaping, fencing, security and related improvements (collectively, the “Improvements”); (iii) the acquisition of and installation in and around the Land and Improvements by the Company of machinery, equipment, fixtures and other items of tangible personal property (the “Equipment” and, collectively with, the Land and the Improvements, the “Facility”); and (iv) entering into a straight lease transaction (within the meaning of subdivision (15) of Section 854 of the Act), pursuant to which the Agency will retain a leasehold interest in the Facility for a period of time and sublease such interest in the Facility back to the Company (the “Straight Lease Transaction”).

The Agency contemplates that it will provide financial assistance (the “Financial Assistance”) to the Company in the form of (A) an exemption from all State and local sales and use taxes with respect to qualifying personal property included in or incorporated into the Facility or used in the construction and equipping of the Facility; and (B) a partial real property tax abatement through a payment-in-lieu-of-tax agreement (the “PILOT Agreement”), pursuant to which the Company would make payments in lieu of real property taxes to the Agency for the benefit of each affected tax jurisdiction (the “Affected Tax Jurisdictions”).

AGENCY COST-BENEFIT ANALYSIS:

Attached

PUBLIC COMMENT:

Paul Lauzon noted that the parcel number listed is incorrect and Jeremy responded that the correct parcel number should be: 23.-3-5. Then Paul Lauzon stated the Covington name as project is confusing to which Barton Pitts replied that is just the name of the LLC. Paul Lauzon then asked about the timeline for this project to which Barton Pitts replied that it is the same as for Covington 1. The hope is to mobilize crews to build both simultaneously. Construction would wrap up mid-end of next summer if started in spring. Both projects could be up and running by fall of 2023.

Jeremy Evans: Proposed terms are:

- 15 year term (consistent with other community solar projects)
- payment per MW is \$5,500
- would be the 4th project with the same exact terms
- on page 2, we will do an estimate for the Affected Taxing Jurisdictions annually based on their tax rates so you can know better what to expect for payments.

Notes

¹ Projected Valuation is an estimate only and used to calculate Estimated Full Taxes. The assessor will determine the actual assessed value once the project is complete. All special district fees will be calculated using the actual assessed value.

² Base Assessed Valuation is frozen at \$83,300 or such amount as may be assigned by the assessor in connection with subdivision or establishment of a new parcel for the project.

³ PILOT Payments for System are fixed and based upon dollar amount per MW nameplate and a 2% annual escalator.

⁴ The Annual Total PILOT Payment is based on the Base Value Payment + Payments for System.

⁵ Tax Rate (per \$1,000 in value) assumes a 1% increase per year.

⁶ Estimated Full Taxes With No PILOT is based on the Finished Value * Mill Rate.

RESOLUTION OF THE COUNTY OF FRANKLIN INDUSTRIAL DEVELOPMENT AGENCY (THE “AGENCY”) MAKING A DETERMINATION PURSUANT TO THE STATE ENVIRONMENTAL QUALITY REVIEW ACT (“SEQRA”) WITH RESPECT TO CERTAIN PROJECTS BEING CONSIDERED BY THE AGENCY

WHEREAS, by Title 1 of Article 18-A of the General Municipal Law of the State of New York, as amended, and Chapter 453 of the Laws of 1970 of the State of New York, as amended (hereinafter collectively called the “Act”), the **COUNTY OF FRANKLIN INDUSTRIAL DEVELOPMENT AGENCY** (hereinafter called “Agency”) was created with the authority and power to own, lease and sell property for the purpose of, among other things, acquiring, constructing and equipping industrial, manufacturing and commercial facilities as authorized by the Act; and

WHEREAS, by resolution adopted March 23, 2021 (the “CS1 Initial Project Resolution”), the Agency accepted an application from **COVINGTON SOLAR 1, LLC** (the “CS1 Company”) in connection with a certain project (the “CS1 Project”) consisting of: (i) the acquisition by the Agency of a leasehold interest in approximately 10.10 acres of real property located at State Route 37 in the Town of Fort Covington, New York (the “CS1 Land”), being more particularly described as a portion of tax parcel No. 23.-3-2.100, as may be subdivided); (ii) the planning, design, construction and operation of a 2MWAC solar electrical

generation system, including panel foundations, inverters, transformers, interconnect wiring, utility connections, sitework, landscaping, fencing, security and related improvements (collectively, the “CS1 Improvements”); (iii) the acquisition of and installation in and around the CS1 Land and Improvements by the Company of machinery, equipment, fixtures and other items of tangible personal property (the “CS1 Equipment” and, collectively with, the CS1 Land and the CS1 Improvements, the “CS1 Facility”); and (iv) entering into a straight lease transaction (within the meaning of subdivision (15) of Section 854 of the Act), pursuant to which the Agency will retain a leasehold interest in the CS1 Facility for a period of time and sublease such interest in the Facility back to the Company (the “CS1 Straight Lease Transaction”); and

WHEREAS, pursuant to the CS1 Initial Project Resolution, the Agency acknowledged that it is required to review the proposed CS1 Project pursuant to the State Environmental Quality Review Act, as codified under Article 8 of the Environmental Conservation law and regulations adopted pursuant thereto by the Department of Environmental Conservation of the State (collectively, “SEQRA”) for which the Agency has established itself as Lead Agency for SEQRA review purposes; and

State Department of Parks, Recreation and Historic Preservation (“SHPO”) (iv) the New York State Department of Transportation (“NYSDOT”) and (v) the New York State Department of Environmental Conservation (“DEC”, and collectively with the County, Town, SHPO and NYSDOT, the “Involved Agencies”), pursuant to which the Agency has received waivers from said Involved Agencies and/or the lead agency solicitation period has expired and therefore the Agency has been installed as lead agency for purposes of the reviewing the Project pursuant to SEQRA; and

WHEREAS, in addition to the applications and supporting materials received in connection with the Project, the FEAF and the Involved Agency Comments, the Agency has received (i) a written review, assessment and recommendations from North Woods, dated March 29, 2021 (the “North Woods Report”), and (ii) certain additional studies and reports from the CS1 Company and CS2 Company (collectively with applications and supporting materials received in connection with the Project, the FEAF and the Involved Agency Comments, the foregoing hereinafter being referred to as the “SEQRA Documents”); and

WHEREAS, as detailed below, and upon review and analysis of the SEQRA Documents and upon review and consideration of the potential impacts presented by the Project, and analyzing same in light of the applicable criteria under SEQRA, the Agency has completed the requisite “hard look” review of the Project required pursuant to SEQRA and applicable case law by reviewing and analyzing the SEQRA Documents, and in particular the North Woods Report, along with other documents and materials; and

WHEREAS, as more particularly set forth below, the Agency has determined that the Project will not result in any significant adverse environmental impact, and as such, no draft environmental impact statement is required to be prepared, and therefor this resolution together with the SEQRA Documents shall constitute the Agency’s adoption of a Negative Declaration in connection with the Project.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE COUNTY OF FRANKLIN INDUSTRIAL DEVELOPMENT AGENCY AS FOLLOWS:

Section 1. Based upon the Agency’s review of the SEQRA Documents, along with associated EAF Mappers for the site of the Project, the Agency hereby:

(a) confirms the Project is a Type I action, as such term is defined pursuant to SEQRA, and that the Agency arranged for notice of its intent to act as lead agency to the Involved Agencies and 30 days have elapsed since such notices were transmitted,

(b) confirms that no Involved Agency objected to the Agency serving as lead agency or confirmed in writing that it has no objection to the Agency serving as lead agency for purposes of review

of the Project pursuant to SEQRA, and as a result, the Agency has conducted a coordinated review of the Project, within the meaning of, and for all purposes of complying with SEQRA; and

(c) finds that based upon the Agency's review of the SEQRA Documents, including a detailed review of the Involve Agency Comments, the Agency has identified the relevant areas of environmental concern with respect to potential impacts from them to land, storm water and groundwater, wetlands, historic, archaeological and other recognized and/or protected resources, threatened or endangered species, community character and cumulative impacts, if any, and other potential impacts as required by applicable regulations; and

(d) confirms that it has considered the criteria set forth in 6 NYCRR Part 617.7(c) and thoroughly analyzed the identified areas of relevant environmental concern, and based upon the Agency's review of the SEQRA Documents, the Project will not have a significant negative impact on the environment, and therefore no environmental impact statement will be prepared for the Project for the reasons stated herein including those summarized below; and

(e) confirms that the foregoing finding by the Agency that the Project will not have a significant negative impact on the environment, the Agency has reviewed and considered the following matters, among others: (i) for purposes of addressing stormwater and groundwater impacts, the Project includes the construction of infiltration basins and other associated measures; (ii) to address potential impacts to wetlands from the Project (though DEC noted the absence of any significant wetlands on the sites at issue) any wetlands shall be avoided as possible to avoid any impacts, and in addition other measures shall be utilized to avoid such impacts including the use of box culverts for certain crossings; (iii) to avoid impact to streams or waterbodies including a channel that is being relocated appropriate mitigation measures will be implemented. Further, while a portion of the Project is contained in an Agricultural District, the loss of any agricultural lands from operation of the Project is minimized due to the location of the solar arrays at issue and the loss or failure to use areas that are or could be used as farmland is not anticipated to be significant, and in any event, the owner of property located within the Project site has agreed to provide a waiver associated with any agricultural property or property rights as recognized under the Agricultural and Markets Law and such waiver shall be secured prior to and as a condition of the initiation of any work or action associated with the Project. In addition, a habitat assessment was performed due to the potential for impacts on the habitat of the northern harrier which also included a request for DEC consultation through its Division of Fish and Wildlife, and based on the foregoing DEC determined that based upon the existing use of the CS1 Land and CS2 Land the manner in which the Project is to be constructed and operated that there would be no significant adverse impact to same.

Section 2. Based upon the foregoing review and findings, the Agency hereby adopts a "Negative Declaration", as defined pursuant to SEQRA and with respect to the Project.

Section 3. The officers, employees and agents of the Agency are hereby authorized and directed for and in the name and on behalf of the Agency to do all acts and things required and to execute and deliver all such certificates, instruments and documents, to pay all such fees, charges and expenses and to do all such further acts and things as may be necessary or, in the opinion of the officer, employee or agent acting, desirable and proper to effect the purposes of the foregoing resolutions and to cause compliance by the Agency with all of the terms, covenants and provisions of the documents executed for and on behalf of the Agency.

Section 4. This Resolution shall take effect immediately.

The question of the adoption of the foregoing Resolution was duly put to a vote on roll call, which resulted as follows:

Description

Farmland classification identifies map units as prime farmland, farmland of statewide importance, farmland of local importance, or unique farmland. It identifies the location and extent of the soils that are best suited to food, feed, fiber, forage, and oilseed crops. NRCS policy and procedures on prime and unique farmlands are published in the "Federal Register," Vol. 43, No. 21, January 31, 1978.

Re: 2978 NY Route 37 solar due diligence
County: Franklin Town/City: Fort Covington

Dear Mr. Dietrich:

In response to your recent request, we have reviewed the New York Natural Heritage Program database with respect to the above project.

Enclosed is a report of rare or state-listed animals and plants, and significant natural communities that our database indicates occur in the vicinity of the project site.

For most sites, comprehensive field surveys have not been conducted; the enclosed report only includes records from our database. We cannot provide a definitive statement as to the presence or absence of all rare or state-listed species or significant natural communities. Depending on the nature of the project and the conditions at the project site, further information from on-site surveys or other sources may be required to fully assess impacts on biological resources.

The presence of the plants and animals identified in the enclosed report may result in this project requiring additional review or permit conditions. For further guidance, and for information regarding other permits that may be required under state law for regulated areas or activities (e.g., regulated wetlands), please contact the NYS DEC Region 5 Office, Division of Environmental Permits, at dep.r5@dec.ny.gov, 518-623-1286.

Sincerely,

Nicholas Conrad
Information Resources Coordinator
New York Natural Heritage Program

**The following state-listed animals have been documented
in the vicinity of the project site.**

The following list includes animals that are listed by NYS as Endangered, Threatened, or Special Concern; and/or that are federally listed.

For information about any permit considerations for the project, contact the NYSDEC Region 5 Office, Division of Environmental Permits, at dep.r5@dec.ny.gov, 518-623-1286.

The following species have been documented within about 1/3 mile of the project site.

<i>COMMON NAME</i>	<i>SCIENTIFIC NAME</i>	<i>NY STATE LISTING</i>	<i>FEDERAL LISTING</i>
Birds			
Northern Harrier <i>Breeding</i>	<i>Circus hudsonius</i>	Threatened	5191
Fish			
Eastern Sand Darter	<i>Ammocrypta pellucida</i>	Threatened	2700

This report only includes records from the NY Natural Heritage database.

If any rare plants or animals are documented during site visits, we request that information on the observations be provided to the New York Natural Heritage Program so that we may update our database.

Information about many of the listed animals in New York, including habitat, biology, identification, conservation, and management, are available online in Natural Heritage's Conservation Guides at www.guides.nynhp.org, and from NYSDEC at www.dec.ny.gov/animals/7494.html.

Good Morning,

We have received your inquiry about a proposed solar project in the Town of Fort Covington, Franklin County. We have reviewed the information you provided and can provide the following comments:

1. **Stormwater SPDES**: If the project will disturb 1 or more acres, a Notice of Intent form will need to be submitted for coverage under the *SPDES General Permit for Stormwater Discharges from Construction Activity (GP-0-10-002)*. The Stormwater Notice of Intent form can be accessed at the following weblink: <http://www.dec.ny.gov/chemical/43133.html>. Please contact Madisen Hetman in our Division of Water at (518) 897-1241 with questions regarding stormwater permit requirements.
2. **Article 10 Permit**: If any of the proposed Solar arrays will have a generating capacity of 25,000 kWh or more, they will require an Article 10 Permit under the Public Service Law for a Major Electric Generating Facility. Please contact Chris Hogan with our Division of Environmental Permits at (518) 402-9151 for more information.
3. **Wetlands**: There are NYSDEC regulated mapped wetlands near your property. A Freshwater Wetlands permit under 6NYCRR Part 663 would be required for work within the Wetland or it's 100' adjacent area. Wetland boundaries are approximate, and a wetland delineation would be required before the application process continues. If a delineation has not been done during the past 5 years a delineation is required. Please contact our Natural Resources office at 518-897-1291 for more information.
4. **Endangered and Threatened Species**: Northern Harrier - The site has been identified as being inhabited by Threatened/endangered species. Hi

Attached is a plan showing a proposed solar array on 2 parcels in Fort Covington.

The solar provider, Nexamp, is seeking to determine if any DEC permits are required for the proposed project.

Please let me know if you need any additional info for a jurisdictional screening.

Dear Rod Morrison:

Thank you for requesting the comments of the State Historic Preservation Office (SHPO). We have reviewed the project in accordance with Section 106 of the National Historic Preservation Act of 1966. These comments are those of the SHPO and relate only to Historic/Cultural resources. They do not include potential environmental impacts to New York State Parkland that may be involved in or near your project. Such impacts must be considered as part of the environmental review of the project pursuant to the National Environmental Policy Act and/or the State Environmental Quality Review Act (New York Environmental Conservation Law Article 8).

Based upon this review, it is the opinion of the New York SHPO that no historic properties, including archaeological and/or historic resources, will be affected by this undertaking.

If further correspondence is required regarding this project, please be sure to refer to the OPRHP Project Review (PR) number noted above.

Sincerely,

Full Environmental Assessment Form
Part 2 - Identification of Potential Project Impacts

Agency Use Only [If applicable]

Project :

Date :

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency **and** the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer "Yes" to a numbered question, please complete all the questions that follow in that section.
- If you answer "No" to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box "Moderate to large impact may occur."
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the "whole action".
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

Part 3 - Evaluation of the Magnitude and Importance of Project Impacts
and
Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

For the reasons set out in detail in the resolution of the County of Franklin Industrial Development Agency adopted on May 27, 2021 and incorporated herein by reference, the Project at issue consisting of the construction and operation of the Covington Solar 1 LLC and Covington Solar 2 LLC projects will not result in any significant adverse impact to the environment and as a result, no draft environmental impact statement will be prepared.

Determination of Significance - Type 1 and Unlisted Actions

SEQR Status: ☒ Type 1 ☐ Unlisted

Identify portions of EAF completed for this Project: ☒ Part 1 ☒ Part 2 ☒ Part 3

Upon review of the information recorded on this EAF, as noted, plus this additional support information

and considering both the magnitude and importance of each identified potential impact, it is the conclusion of the
Franklin County Industrial Development Agency _____ as lead agency that:

☒ A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.

☐ B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:

There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.7(d)).

☐ C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those impacts. Accordingly, this positive declaration is issued.
